

DPD-4539-59

1 July 1959

Dear Sid,

The attached concurrence memo is returned for your signature. It is true that Amendment No. 6 to TM-1606 did not cover work for you or your dollars. Our original agreement, at least as we understood it, was that you would concur in the basic contract as well as all amendments regardless of whether or not your money was involved. This of course applies only to those contracts in which you are involved at one time or another.

If we are in left field let us know and we will discuss the matter further with you.

Very truly yours,

Dan
